AQUA[®] CLEAN SYSTEM

AQUA CLEAN supera i tradizionali sistemi di scarico detti "rimless", aggiungendo una nuova tecnologia di deflusso dell'acqua con **spinta vorticoso dal basso**, come raffigurato nel riquadro zoom, e favorendo così l'**effettivo scarico con 3.5 L** e la perfetta pulizia di tutta la superficie. Questa moderna tecnologia assicura la **totale assenza di schizzi d'acqua** al di fuori del wc.

AQUA CLEAN exceeds the traditional flushing systems called "rimless", by adding a new water outflow technology with an **upthrust vortex from below**, as shown in the zoom box, thus favouring the **effective flush with 3.5 L** and perfect cleaning of all the surface. This modern technology ensures the **total absence of water splashes** outside the WC.

WATER SAVING 3.5L

L'attenzione al risparmio idrico è oggetto di studio a partire dalla fase di progettazione. Tutte le tipologie di wc sono ottimizzate per un'evacuazione con **3,5 litri d'acqua**. Nel pieno rispetto delle direttive comunitarie, i prodotti **Joy Italy** sono marcati **CE** a indicare che il prodotto è conforme a tutte le disposizioni comunitarie. Ogni prodotto viene sottoposto a rigorosi controlli da parte del personale qualificato. Nel laboratorio tecnico, provvisto di macchinari di ultima generazione, vengono effettuati test di controllo della qualità, della funzionalità e delle prestazioni dei prodotti, confermandone l'idoneità all'immissione sul mercato.

The attention to water saving has been studied since the planning stage. All the WC categories are optimized for a water evacuation of **3,5 l**. In the full respect of the European directives, the **Joy Italy** products are marked **CE**, to indicate that the items are in compliance to all the European regulations. Each article is subject to meticulous controls by skilled personnel. In the technical laboratory, equipped with the latest generation machinery, are performed quality, functionality and performance tests on all items, confirming the suitability for the introduction onto the market.

Produzione, innovazione

Valore aggiunto dell'intero ciclo produttivo è l'utilizzo di **macchinari di ultima generazione**. Sotto l'attenta supervisione del personale tecnico specializzato, ogni fase produttiva è sottoposta a rigorosi controlli. L'attenzione dedicata allo studio dei prodotti consente a **Joy Italy** di immettere sul mercato articoli contraddistinti da un **elevato standard qualitativo**, così da soddisfare il gusto e le necessità dei propri clienti.

The added value of the entire production cycle is the use of the **latest generation machinery**. Under the careful supervision of skilled technical personnel, each production stage undergoes strict controls. The attention dedicated to the study of products enables **Joy Italy** to introduce to the market products distinguished by **high quality standards**, so as to satisfy the tastes and needs of its customers.

Materie prime naturali

Nell'intero ciclo produttivo vengono impiegate esclusivamente **materie prime di altissima qualità**. Grazie all'utilizzo di elementi naturali, con la sola aggiunta di acqua, la ceramica può essere considerata l'unico materiale sostenibile e **100 % eco compatibile** utilizzato nell'ambiente bagno.

Only **the highest quality raw materials** are used in the entire production cycle. Thanks to the use of natural elements and by just adding water, ceramic can be considered the only sustainable material **100% eco-compatible** used in the bathroom environment.
